Fr. Agnel College of Arts & Commerce

Pilar – Goa

Programme and Course Outcomes

(Semester I and II under NEP for First Year introduced in 2023-24)

STREAM: BACHELOR OF COMPUTER APPLICATIONS (BCA)
DEPARTMENT OF COMPUTER APPLICATIONS

PROGRAMME OUTCOMES:

Upon completion of the programme the students will be able to:

PO1 Knowledge- Apply knowledge of Computer Science and current IT technologies to meet the needs of industry, trade, and commerce.

PO2 Critical thinking, creativity and problem solving: Identify problems, determine feasibility, analyse, design/ development of solutions for problems and implement them using appropriate technologies to meet societal and economical needs.

PO3 Individual, ethics and teamwork: Communicate and function effectively as an individual, and in teams to manage small and medium-sized projects in multidisciplinary environments.

PO4 Modern tool usage–Use the techniques, skills, and modern computing tools necessary for innovative software solutions.

PO5 Career-Readiness and Employability: Pursue further studies and acquire skills meeting industry-requirements

PO6 Holistic Growth: To impart knowledge, and skills, and also inculcate values and competencies to meet the evolving needs of the industry and society.

PO7 Life-long learning: Recognise the need for, prepare and engage in continuous learning as a computing professional

PROGRAMME SPECIFIC OUTCOMES

Upon the completion of the programme students will be able to;

PSO 1 Identify, formulate, analyse, design, and test solutions to computational problems using the concepts and principles of computer science

PSO 2 Design, select and apply computer tools and technologies to automate manual processes and improve existing computerised processes.

PSO 3 Discover and understand new technology, and develop a skill set via practical experience to gain fruitful employment.

PSO 4 Analyse the effects of computational solutions on society and the environment while performing effectively as a member and team leader of the software development team.

COURSE OUTCOMES

Semester I

Course Name: Problem Solving and Programming
Course Code: CSA100
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand the ways and stages of Problem Solving.
CO2	Understand basic computing concepts, algorithm design, flowchart design, programming constructs and debugging.
CO3	Apply the problem-solving & programming concepts in designing solutions to simple problems.
CO4	Code and implement a well-structured programming logic using a suitable programming language.

Course Name: Elementary Mathematics
Course Code: MAT111
Course Outcomes:
Upon completion of the course students will be able to:

CO1	Comprehend the concept of Sets, Relations and Functions.
CO2	Evaluate the basic limits, identify discontinuous functions, and apply techniques of differentiation.
CO3	Construct the polar form of complex numbers.
CO4	Compute the gradient, curl and divergence.
CO5	Formulate and solve differential equations.

Course Type: MC
Course Name: Marketing for Beginners
Course Code: COM133
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Develop an understanding of various concepts of marketing.
CO2	Acquaint learners with the knowledge of marketing mix and the skill to develop effective marketing strategy.
CO3	Acquaint learners with recent trends in marketing and to enable them to understand legal issues in marketing.

Course Type: AEC
Course Name: Communicative English: spoken and Written
Course Code: AEC151
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand global sustainability challenges.
CO2	Appreciate mechanisms to promote equity and social justice.
CO3	Explain role of enhance education and awareness in achieving long term well-being for present and future generations sustainably.

Course Type: SEC
Course Name: Python Programming
Course Code: CSA-142
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Examine Python syntax and semantics and be fluent in the use of Python flow control and functions.
CO2	Learn how to write loops and decision statements in Python.
CO3	Create, run and manipulate Python Programs using core data structures like Lists, Tuples and Dictionaries.
CO4	Demonstrate proficiency in handling Strings and File Systems.

Course Type: VAC
Course Name: Environmental Studies I
Course Code: VACC101
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Sensitize students to environmental conservation and sustainable use of resources.
CO2	Familiarize students with various ecosystems of Goa and India.
CO3	Create awareness about the endemic and endangered species of India.
CO4	Promote students to apply the information and to create awareness at individual level to protect environment.

Course Type: VAC
Course Name: Constitutional Values and Obligations
Course Code: VACC104
Course Outcomes:
Upon completion of the course students will be able to

CO1	Explain the relevance of Constitution of India in a democratic setup.
CO2	Describe the Fundamental Rights and Fundamental Duties.
CO3	Explain the policy of governance.
CO4	Develop ability to apply the Values and State policy enshrined in the Constitution in national life

Semester II

Course Name: Computer Organization
Course Code: CSC100
Course Outcomes:
Upon completion of the course students will be able to:

CO1	Explain the theory and architecture of central processing unit, I/O and Memory
CO2	Analyze some of the design issues in terms of speed, technology, cost, performance, CPU architecture.
CO3	Describe the concepts of parallel processing, pipelining and interprocessor com

CO4	Represent different number systems, and perform various binary operations

Course Name: Elementary Statistics
Course Code: MAT112
Course Outcomes:
Upon completion of the course students will be able to:

CO1	Interpret data and graphically represent it.
CO2	Calculate measures of central tendencies and variations.
CO3	Analyse correlation and regression.
CO4	Solve problems in Probability theory.
CO5	Understand different data sampling techniques. CO6 Apply statistical quality c

Course Type: MC
Course Name: Management of Micro, Small and Medium Enterprises
Course Code: COMI38
Course Outcomes:
Upon completion of the course students will be able to:

CO1	Explain the concept of MSMEs and Elaborate the different stages of starting the MSMEs.
CO2	Explain various functional areas of managing MSMEs.
CO3	Identify the Institutional Support and incentives available to MSMEs

Course Type: SEC
Course Name: Data Analytics using Spreadsheets
Course Code: CSA143
Course Outcomes:
Upon completion of the course students will be able to:

CO1	Understand the basics of spreadsheets and advanced functions
CO2	Apply data analysis and data visualization using charts and pivot tables.
CO3	Apply the knowledge of power query and DAX in spreadsheets.
CO4	Apply data analysis tools and solve simple real-life data analysis applications.

Course Type: AEC
Course Name: Digital Content Creation in English
Course Code: AEC152
Course Outcomes:
Upon completion of the course students will be able to:

CO1	Introduce students to the process, genres and types of writing for digital platform.
CO2	Enhance multi-media literacy skills among students.
CO3	Build confidence and ability in using digital technology for communication.

Course Type: VAC
Course Name: Life Skills
Course Code: VAC116
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Introduce the students to life skills
CO2	Understand the connection between emotional, social and thinking skills.
CO3	Train the students in conducting life skills workshops with various stakeholders.
CO4	Develop critical and creative thinking skills

Course Type: VAC
Course Name: E-Waste Management (VAC 112)
Course Code: VAC112
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Familiarize students with the present scenario of e--waste.
CO2	Comprehend key terminology linked with e-waste.
CO3	Find impart on life skills to minimise the hazards related to e-waste management regular basis.
CO4	Create awareness of the regulations related to e-waste to contribute to effective management throughout society

STREAM: BACHELOR OF ARTS (BA)

PROGRAMME OUTCOMES

The undergraduate Programmes in Social Sciences and Languages will equip the students with holistic education through the following Outcomes:

PO 1	**Knowledge**	Demonstrate strong subject-based knowledge in the field of Social Sciences, Humanities and Languages
PO 2	**Decision Making**	Critically interpret advanced theoretical concepts and develop decision-making capabilities.
PO 3	**Individual Ethics & Team Work**	Ability to work effectively with coordinated effort as a member of a team.
PO 4	**Learner and Society**	Sensitizing students with respect to local, national and international events and issues.
PO5	**Communication and Soft Skills**	Demonstrate the ability to listen carefully, read and write analytically, and present complex information in a clear and concise manner to different groups.
PO6	**Project Management and Research**	Use research methodology to carry out research in their respective subject and find solutions on specific issues
PO7	**Lifelong Learning**	Acquire human values framing the base to deal with various problems in life with courage and humanity.

DEPARTMENT OF HISTORY

PROGRAMME SPECIFIC OUTCOMES

Upon completion of the Programme the students will be able to:

PSO1 Develop an interest in historical events which will enable the students to make a comparative study of the past and present societies and cultures.

PSO2 Analyse various sources thus developing a spirit of critical inquiry and historical research

PSO3 Equip the students with skills, confidence, and the ability in using digital technology for communication.

PSO4 Nurture analytical qualities, research and writing skills through assignments & project work.

DEPARTMENT OF POLITICAL SCIENCE

PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme the students will be able:

PSO1 To understand the evolution of key concepts in Political Theory, the Constitution of India, Human Rights, Public Administration, Western Political Thought, International Relations and its impact on India's Foreign Policy.

PSO2 To critically evaluate and analyze political thought, theory, institutions and processes.

PSO3 To sensitize students on the Constitutional and Social issues in India

PSO4 To generate possible solutions to the problems plaguing political institutions and processes at the international, national and local level.

PSO5 To critically analyze the impact of International and National events or issues on day to day life.

PSO6 To Analyze India's role in the emerging global political economy.

PSO7 To assess the emerging global challenges such as Terrorism, Environmental issues and Global inequality and Refugee Crisis.

DEPARTMENT OF ECONOMICS
PROGRAMME SPECIFIC OUTCOMES

On completion of the Programme the student will be able to:

PSO 1 Develop intellectual ability through sound understanding of core economic concepts and theories.

PSO 2 Develop critical thinking and problem-solving skills by building ability to use economic tools of analysis to examine and interpret economic issues.

PSO 3 Build ability to put forth well-organized arguments on economic, business and finance issues and to carry out basic research in economic areas.

PSO 4 Apply knowledge of economic theory to practice in understanding and reasoning out real-world issues, problems and events related to society, business and economy.

DEPARTMENT OF SOCIOLOGY
PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme;

PSO1 Students will be able to demonstrate strong conceptual knowledge of the land and its people of Goa.

PSO2 Students will be able to evaluate the social-cultural institutions of Goa.

PSO3 Students will be able to take evaluate and take decision on the processes of change that affects Goan society.

PSO4 Students will be able to understand and demonstrate knowledge on issues and concerns affecting Goan Society.

DEPARTMENT OF HINDI

PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme the students will be able to:

PSO 1 Knowledge and Creativity: The department aims to develop a theoretical and practical understanding of the subject's concepts, principles and theories to understand the Hindi language and literature. Using cognitive skills to develop creativity.

PSO 2 Critical Thinking and Research through Education: The department tries to develop different methodologies of critical thinking to motivate them to be focused on nurturing analytical reasoning and critical thinking.

PSO 3 Human Values and Life Skills: Inculcating human values and ethics to the holistic development of students through Hindi Literature. Impart value-based learning to train students to be socially responsible citizens.

PSO 4 Effective skills in Various fields: It aims to help students carve out an identity for themselves in various fields and utilise their skills effectively in the workplace.

DEPARTMENT OF ENGLISH
PROGRAMME SPECIFIC OUTCOMES

After completion of this programme, students will be able to:

PSO 1 Infer the unique perspective of diaspora writers and appreciate the aesthetics of Indian English poetry.

PSO 2 Comprehend and examine the pattern of development and change in the themes and literary techniques used by the nineteenth-century British novelists and poets.

PSO 3 Infer the overtones prevalent in the New World audience through an understanding of the nuances of Identity, Region, Race and Gender.

PSO 4 Communicate their perspective on concepts of migration, identity, memory, nostalgia and appreciate global intersectionality stemming out of increased migration and cross-cultural living.

DEPARTMENT OF KONKANI

PROGRAMME SPECIFIC OUTCOMES

On completion of the Programme the student will be able to:

PSO 1 Understand Society, culture and literature at the global as well as local context.

PSO 2 Acquire command over the use of Konkani for creative writing, develop critical skills.

PSO 3 Develop good interpersonal Skills and apply it to maintain societal relations.

PSO 4 Learn translation skills and also develop familiarity with administrative language.

DEPARTMENT OF MATHEMATICS
PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme, the students will be able to:

PSO 1 Introduce concepts of mathematics with emphasis on analytical ability and use mathematical techniques to solve well-defined problems.

PSO 2 Identify the applications of mathematics in other disciplines.

PSO 3 Enable students to identify and relate real-time business applications.

PSO 4 Apply acquired skills for practical economic problems.

DEPARTMENT OF INFORMATION TECHNOLOGY

PROGRAMME SPECIFIC OUTCOMES

Upon the completion of the programme students will be able to;

PSO 1 Understand Fundamental Technology Concepts, Emerging Technologies Computer Field and practical skills.

PSO 2 Describe computer networking, e-Technology and understanding principles of cyber security.

PSO 3 Develop specific skills and competencies in hardware and software used in publication.

PSO 4 Understand and analyze different components of multimedia elements.

COURSE OUTCOMES:

Semester I

Course Type: Major
Course Name: History of Goa (from early times to liberation)
Course Code: HIS100
Department: History
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Identify the sources for the history of Goa
CO2	Explain the politico-administrative, socio-cultural history of the region.
CO3	Analyze the impact and legacy of Portuguese colonialism.

OR

Course Type: Major
Course Name: Introduction to Economics
Course Code: ECO100
Department: Economics
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Explain basic framework of economic analysis.
CO2	Compare different kinds of economic systems.
CO3	Distinguish between different approaches to economic outcomes.

OR

Course Type: Major
Course Name: Introduction to English Literature
Course Code: ENG100
Department: English
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Read and appreciate literary texts.
CO2	Understand literary movements and the writers representing their times.
CO3	Get insights into the nuances of literary writing.
CO4	Appreciate and distinguish between major genres of literature.

Course Type: Minor
Course Name: Crime and Society
Course Code: SOC111
Department: Sociology
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Critically analyse the changing profile and perspectives on crime and criminals.
CO2	Understand the context/circumstances of crimes from Sociological perspectives.
CO3	Analyse society's means and methods of punishment for criminal behaviour.
C04	Comprehend the role of the police, courts, and prison as a means to enforce law, sanctions and punish criminal acts.

OR

Course Type: Minor
Course Name: Humorous Essays in Konkani
Course Code: KON111
Department: Konkani
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Students will be able to define and reproduce different elements, types and definitions of story as literary Form
CO2	Students will study the skills and work of different Eminent story Writers of Konkani.
CO3	Students will learn grammatical skills in-depth.
CO4	Students will learn translation skill.

OR

Course Type: Minor
Course Name: Basics Concepts in Political Science
Course Code: POL111
Department: Political Science
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	To familiarize with the basic operative definitions in Political Science.
CO2	To understand the fundamental aspects of state, nation, government, and civil society.
CO3	To relate themselves to the day-to-day political happenings and develop an interest in a larger understanding of the study of Political Science.

OR

Course Type: Minor
Course Name: Hindi Drama Literature: Introductory Study
Course Code: HIN111
Department: Hindi
Course Outcomes:

Upon completion of the Course the students will be able to understand:

CO1	Hindi Naty sahity ke prati ruchi jagi.
CO2	Hindi naty pravrutiyo ka vivechan aur vishleshn kar paye.
CO3	Chayanit natako ka vivechan aur vishleshan.
CO4	Rachna ke madhyam se maanv mulyo ko jana.

Course Type: MC
Course Name: Mathematical Techniques in Competitive Exams
Course Code: MAT131
Department: Mathematics
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Apply mathematical techniques in solving problems.
CO2	Identify tricks in solving problems quickly.
CO3	Employ various strategies to solve problems arising in various competitive exams.
CO4	Manage time in answering several questions appearing in the exam.

OR

Course Type: MC
Course Name: Accounting for Non-Accountants
Course Code: COM131
Department: Commerce
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Explain various terms used in accounting.
CO2	Record accounting entries and prepare trial balance.
CO3	Prepare profit and loss account and balance sheet from complete and incomplete records.
CO4	Prepare Income and Expenditure Account and Balance sheet for Professionals.

OR

Course Type: MC
Course Name: Marketing for Beginners
Course Code: COM133
Department: Commerce
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Identify the sources for the history of Goa
CO2	Explain the politico-administrative, socio-cultural history of the region.
CO3	Analyze the impact and legacy of Portuguese colonialism.

Course Type: AEC
Course Name: Communicative English: Spoken and Written
Course Code: ENG151
Department: English
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Elicit and show respect for the views of others as well as be culturally sensitive.
CO2	Display emotional stability and self-confidence.
CO3	Apply critical thinking skills through decision-making and problem-solving.
CO4	Demonstrate effective written communication for an intended purpose and audience that follows genre/disciplinary conventions that reflect creation, organization, precision, and revision.

Course Type: SEC
Course Name: Documentary Script Writing and Production Process
Course Code: KON141
Department: Konkani
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Gather information on a particular topic
CO2	Compose Scripts and visualise the storyline
CO3	Creative conceptualization
CO4	Streamline the gathered information into visual form

OR

Course Type: SEC
Course Name: Introduction to Archaeology
Course Code: HIS141
Department: History
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Understand the fundamentals of Archaeology
CO2	Develop knowledge of archaeology for understanding history
CO3	Classify and compare the practice of archaeology
CO4	Assess the need for conservation and preservation of historical Artefacts.

OR

Course Type: SEC
Course Name: Multimedia and Web Design
Course Code: CSC142
Department: Information Technology
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Create and edit images, audio and video.
CO2	Build websites using the elements of HTML and Build interactive and stylish websites using client-side programming techniques with CSS and JavaScript.
CO3	Learn to validate client-side data and define the structure and contents of the website using different features of CSS.

Course Type: VAC
Course Name: Environmental Studies I
Course Code: VACC100
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Sensitize students to environmental conservation and sustainable use of resources.
CO2	Familiarize students with various ecosystems of Goa and India.
CO3	Create awareness about the endemic and endangered species of India.
CO4	Promote students to apply the information and to create awareness at individual level to protect environment.

Course Type: VAC
Course Name: Constitutional Values and Obligations
Course Code: VACC104
Department: Political Science
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Explain the relevance of Constitution of India in a democratic setup.
CO2	Describe the Fundamental Rights and Fundamental Duties.
CO3	Explain the policy of governance.
CO4	Develop ability to apply the Values and State policy enshrined in the Constitution in national life

Course Type: VAC
Course Name: Awareness of Cyber Crimes and Security
Course Code: VACC110
Department: Information Technology
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Awareness of Cyber Crimes and Security.
CO2	Understand the global problems faced by individuals, organizations due to cybercrimes and attacks.
CO3	Apply the cyber security analysis to mitigate and prevent such attacks.

Course Type: VAC
Course Name: Life Skills
Course Code: VACC116
Department: English
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Introduce the students to life skills
CO2	Understand the connection between emotional, social and thinking skills.
CO3	Train the students in conducting life skills workshops with various stakeholders.
CO4	Develop critical and creative thinking skills

Semester II

Course Type: Major
Course Name: Invitation to Sociology
Course Code: S100
Department: Sociology
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Discern the relevance of sociology in contemporary times.
CO2	Acquaint with basic concepts, and different approaches to the study of society and develop an interest in the Subject.
CO3	Develop skills to view and analyse the society around them critically.
CO4	Sensitize to the foundation and organisation of social life.

OR

Course Type: Major
Course Name: Hindi Story Literature: Introductory study
Course Code: HIN100
Department: Hindi
Course Outcomes:
Upon completion of the Course the students will develop:

CO1	Hindi Kahani ki ruchi badegi.
CO2	Kahani avdharna aur Swaroop se Parichit Honge.
CO3	Kahani aur kahanikar se parichy hoga.
CO4	Rachne ka pryas karnege.

OR

Course Type: Major
Course Name: An Introduction to Konkani Short Stories
Course Code: KON100
Department: Konkani
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Understand the creative process behind story writing.
CO2	Know basic objective of this course is to familiarize the students with history of Konkani short stories.
CO3	Gain knowledge and enhance their creative writing ability.

OR

Course Type: Major
Course Name: Introduction to Political Theory
Course Code: POL100
Department: Political Science
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	To impart knowledge about the fundamentals of Political Science and theories of State and Sovereignty;
CO2	To understand the basic concepts in the discipline of Political Science;
CO3	To inculcate the democratic spirit amongst the learners.

Course Type: Minor
Course Name: Resistance to Colonial Rule in Goa
Course Code: HIS111
Department: History
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Discuss the nature of local resistance to Portuguese colonialism in Goa.
CO2	Summarise the efforts of the freedom fighters to free Goa from the Portuguese rule.
CO3	Assess the transition from colonial rule to self-rule.

OR

Course Type: Minor
Course Name: Political Economy I
Course Code: ECO111
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Introduce to key economic ideas
CO2	Offer critical perspective on economic concepts and models
CO3	Understand economic issues and outline alternatives for the future.

OR

Course Type: Minor
Course Name: Detective Fiction in English
Course Code: ENG152
Department: English
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Identify the concepts of Crime/Detective fiction.
CO2	Able to infer the writing strategies utilised to create and build suspense.
CO3	Analyse the construction of criminal identity in human nature.
CO4	Critique the stereotypes used in detective/crime fiction.

Course Type: MC
Course Name: Descriptive Statistics
Course Code: MAT132
Department: Mathematics
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Understand concepts of sample v/s. population and Identify different types of scales.
CO2	Distinguish between primary and secondary data and organize the Statistical data.
CO3	Calculate measures of central tendencies and variations.
CO4	Interpret correlation and regression.

OR

Course Type: MC
Course Name: Tourism and Hospitality Management
Course Code: COM137
Department: Commerce
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Develop awareness about the concept of Tourism
CO2	Explain various forms of Tourism.
CO3	Identify the challenges for tourism development.
CO4	Identify the latest developments in the Tourism and Hospitality industry.

OR

Course Type: MC
Course Name: Introduction to Micro, Small and Medium Enterprises
Course Code: COM138
Department: Commerce
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Explain the concepts of MSME's.
CO2	Elaborate the different stages of starting the MSME's.
CO3	Explain various functional areas of managing MSME's.
C04	Identify the Institutional Support and incentives available to MSME's.

Course Type: AEC
Course Name: Digital Content Creation in English
Course Code: AEC152
Department: English
Course Outcomes:

CO1	Create and deliver individual presentations using a variety of digital software.
CO2	Compose and present a digital story.
CO3	Identify and distinguish between different genres of writing.
CO4	Interpret graphic data to arrive at an informed conclusion.

Course Type: SEC
Course Name: Anchoring Skills
Course Code: KON142
Department: Konkani
Upon completion of the Course the students will be able to:

CO1	Learn skills of script writing.
CO2	Appreciate the importance of reading and communication.
CO3	Overcome barriers of public speaking.
CO4	Anchor at events.

OR

Course Type: SEC
Course Name: Introduction to Museology
Course Code: HIS142
Department: History
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Understand the fundamentals of Museology.
CO2	Identify and acquire knowledge of Museology for understanding history.
CO3	Develop the need for conservation and preservation of historical artefacts.

OR

Course Type: SEC
Course Name: Graphical User Interface Design
Course Code: CSC147
Department: Commerce
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Explain the principles and concepts of Interface design.
CO2	Create intuitive interfaces and explain UX.
CO3	Create better interfaces for effective UX.

Course Type: VAC
Course Name: Environmental Studies I
Course Code: VACC101
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Sensitize students to environmental conservation and sustainable use of resources.
CO2	Familiarize students with various ecosystems of Goa and India.
CO3	Create awareness about the endemic and endangered species of India.
CO4	Promote students to apply the information and to create awareness at individual level to protect environment.

Course Type: VAC
Course Name: Constitutional Values and Obligations
Course Code: VACC104
Department: Political Science
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Explain the relevance of Constitution of India in a democratic setup.
CO2	Describe the Fundamental Rights and Fundamental Duties.
CO3	Explain the policy of governance.
CO4	Develop ability to apply the Values and State policy enshrined in the Constitution in national life

Course Type: VAC
Course Name: Awareness of Cyber Crimes and Security
Course Code: VACC110
Department: Information Technology
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Awareness of Cyber Crimes and Security.
CO2	Understand the global problems faced by individuals, organizations due to cybercrimes and attacks.
CO3	Apply the cyber security analysis to mitigate and prevent such attacks.

Course Type: VAC
Course Name: Life Skills
Course Code: VACC116
Department: English
Course Outcomes:
Upon completion of the course students will be able to:

CO1	Introduce the students to life skills
CO2	Understand the connection between emotional, social and thinking skills.
CO3	Train the students in conducting life skills workshops with various stakeholders.
CO4	Develop critical and creative thinking skills

STREAM: BACHELOR OF COMMERCE (BCOM)
DEPARTMENT OF COMMERCE
PROGRAMME OUTCOMES

Upon completion of the programme the students will be able to:

PO 1	Knowledge	Learners will gain in depth knowledge and skill set in various disciplines of Commerce, Business, Accounting, Cost Accounting, Economics, Finance, Auditing and Marketing.
PO 2	Decision making	Enhances the capability of decision making at personal and professional levels.
PO 3	Individual, ethics & team work	Learners will be responsible citizens as various academic and co-curricular courses imbibe sensitivity, moral and ethical values among them.
PO 4	Learner & society	Will be aware of the need for environmental protection and sustainable development
PO 5	Communication & soft skills	Develops communication skills and build confidence to face the challenges of the corporate world.
PO 6	Project management & finance	Learners can pursue careers as financial experts and also develop a better understanding of the markets as this course gives an in-depth understanding of the essential qualities and areas of expertise required for such jobs.
PO 7	Lifelong learning	Learners further move towards research in the field of Commerce.

PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme the students will be able to:

PSO 1   Apply qualitative and quantitative knowledge to practical situations in the discipline of Accounting, Taxation and Auditing and explore career options in skills within the various disciplines of Accounting.

PSO 2   Apply qualitative and quantitative knowledge to practical situations in the discipline of Cost Accounting, Cost Auditing, Cost Control, Management Accounting and extend acquired expertise to make effective decisions based on cost consciousness.

PSO 3   Develop strategies in the areas of Advertising Management, Retail Management, Service Marketing, Strategic Management, Supply Chain and Logistics Management, Brand Management and aspire to be resourceful and extend acquired expertise to the community.

PSO 4   Gain exposure to interpret and apply theories, framework and techniques of Economics, Mathematics and Computer Science.

Semester I

Course Type: Major
Course Name: Financial Accounting
Course Code: COM100
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Explain the basic accounting concepts, conventions, and accounting standards.
CO2	Record various kinds of business transactions.
CO3	Prepare the financial statements as per Companies Act, 2013.
CO4	Prepare Investment Accounts for buying/selling of fixed/non-fixed interest-bearing securities.

Course Type: Minor
Course Name: Principles and Practice of Management
Course Code: COM111
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Describe the competitive landscape of a company using Porter's five force model.
CO2	Interpret the relevance of delegation and decentralization of authority in an organization.
CO3	Recognise the various needs of an individual using Maslow's Need-Hierarchy Theory.
CO4	Elucidate the principles and major techniques of control and apply the principles and techniques of coordination.

Course Type: MC
Course Name: Gender Studies: An Introduction
Course Code: SOC131
Department: Sociology
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Students will be aware of gender variations, gender specific issues and learn how sex and gender are socially defined.
CO2	Students can critically analyse how portrayals of gender in media normalizes gender-based violence.
CO3	Students learn to explore possible remedies to achieve gender equality.

Course Type: MC
Course Name: Sustainable Development
Course Code: ECO131
Department: Economics
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand global sustainability challenges.
CO2	Appreciate mechanisms to promote equity and social justice.
CO3	Explain role of enhance education and awareness in achieving long term well-being for present and future generations sustainably.

Course Type: AEC
Course Name: Communicative English: spoken and Written
Course Code: AEC151
Department: English
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Elicit and show respect for the views of others as well as be culturally sensitive.

CO3	Apply critical thinking skills through decision making and problem solving.
CO4	Demonstrate effective written communication for an intended purpose and audience that follows genre/disciplinary conventions that reflect processes like creation, organisation, precision and revision.

Course Type: SEC
Course Name: Business Documentation
Course Code: COM144
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Demonstrate business document presentation skills.
CO2	Display competence in business correspondence.
CO3	Display competence in business documentation.
CO4	Prepare business reports.

Course Type: SEC
Course Name: Data analytics using Spreadsheets
Course Code: CSC143
Department: Information Technology
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand the basics of spreadsheets and advanced functions.
CO2	Apply data analysis and data visualization using charts and pivot tables.
CO3	Apply the knowledge of power query and DAX in spreadsheets.
CO4	Apply data analysis tools and solve simple real-life data analysis applications.

Course Type: SEC
Course Name: Business Mathematics I
Course Code: COM142
Department: Mathematics
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Solve problems in the areas of business calculus, simple and compound interest account' loan and consumer credit.
CO2	Undertake necessary computations for problems of interest, annuities and perpetuities, capitalized cost, depletion of allowances, stocks and bonds.
CO3	Evaluate and select financial arrangements which are best for a consumer.
CO4	Demonstrate and use calculus in the areas of Commerce, Economics and Finance.

Course Type: SEC
Course Name: Entrepreneurship Intro I
Course Code: ECO142
Department: Economics
Course Outcomes:
Upon the completion of the course students will be able to:

Course Type: VAC
Course Name: Environmental Studies I
Course Code: VACC101
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Sensitize students to environmental conservation and sustainable use of resources.
CO2	Familiarize students with various ecosystems of Goa and India.
CO3	Create awareness about the endemic and endangered species of India.
CO4	Promote students to apply the information and to create awareness at individual level to protect environment.

Course Type: VAC
Course Name: Constitutional Values and Obligations
Course Code: VACC104
Department: Political Science
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Explain the relevance of Constitution of India in a democratic setup.
CO2	Describe the Fundamental Rights and Fundamental Duties.
CO3	Explain the policy of governance.
CO4	Develop ability to apply the Values and State policy enshrined in the Constitution in national life

Course Type: VAC
Course Name: Awareness of Cyber Crimes and Security
Course Code: VACC110
Department: Information Technology
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Awareness of Cyber Crimes and Security.
CO2	Understand the global problems faced by individuals, organizations dueto cybercrimes and attacks.
CO3	Apply the cyber security analysis to mitigate and prevent such attacks.

Course Type: VAC
Course Name: Life Skills
Course Code: VACC116
Department: English
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Introduce the students to life skills
CO2	Understand the connection between emotional, social and thinking skills.
CO3	Train the students in conducting life skills workshops with various stakeholders.
CO4	Develop critical and creative thinking skills

Semester II

Course Type: Major
Course Name: Elements of Cost
Course Code: COM101
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Explain various concepts in cost accounting.
CO2	Identify and account for elements of material and employee costs.
CO3	Identify and account for elements of overhead costs.
CO4	Prepare cost sheet

Course Type: Minor
Course Name: Fundamentals of Banking
Course Code: COM112

Department: Commerce

Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Explain the structures, types and systems of banking.
CO2	Explain the functions, types of customers and banker-customer relationship.
CO3	Elucidate negotiable instruments.
CO4	Practice e-banking.

Course Type: MC

Course Name: Health and Society

Course Code: SOC132

Department: Sociology

Course Outcomes:

Upon the completion of the course students will be able to:

CO1	To analyse the role of social factors in the distribution of health and access to healthcare.
CO2	Identify the relationship between gender and health issues.
CO3	Assess social attitudes pertaining to stigmatised diseases and disabilities.

Course Type: MC

Course Name: Globalisation

Course Code: ECO132

Department: Economics

Course Outcomes:

CO1	Understand basic concepts, evolution and dimensions of globalisation.
CO2	Assess the impact of globalisation and the wide range of reactions they have caused around the world.
CO3	Evaluate the pros and cons of globalisation and suggest measures.
CO4	Summarize the globalisation of markets, production, Investment and Technology.

Course Type: AEC

Course Name: Digital Content Creation in English

Course Code: AEC152

Department: English

Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Introduce students to the process, genres and types of writing for digital platform.
CO2	Enhance multi-media literacy skills among students.
CO3	Build confidence and ability in using digital technology for communication.

Course Type: SEC

Course Name: Corporate Secretaryship

Course Code: COM148

Department: Commerce

Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Explain the theoretical background of the Corporate Secretary
CO2	Perform secretarial practice related to the conduct of company meetings.
CO3	Perform a secretarial audit.
CO4	Demonstrate drafting skills related to the Corporate Secretaryship.

Course Type: SEC
Course Name: Analytics using Spreadsheets -II
Course Code: CSC148
Department: Information Technology
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Use conditional arithmetic functions to summarize data and use financial functions, given a spreadsheet with data and relevant description of desired output.
CO2	Perform what-if analysis and data validation on given data for a given scenario and summarize and analyze data using Pivot Tables and PivotCharts.
CO3	Present and visualize data using Dashboard for given data and given scenarios and obtain descriptive statistics for given data using AnalysisToolPak.

Course Type: SEC
Course Name: Business Mathematics II
Course Code: COM147
Department: Mathematics
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Analyse and relate acquired mathematical concepts to problems in Business and Economics.
CO2	Solve problems on general aptitude and logical reasoning in view of various competitive examinations.
CO3	Demonstrate ability to solve system of equations and its applications in operations research.
CO4	Apply mathematical logic in reasoning and constructing mathematical arguments to provide proofs.

Course Type: SEC
Course Name: Entrepreneurship Intro II
Course Code: ECO144
Department: Economics
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Assess their own strengths and identify gaps to become a successful entrepreneur.
CO2	Develop an entrepreneurial mind-set with key skills in communication preparation of the business plan based on feasibility analysis.
CO3	Evaluate the need for social responsibility of business and appreciate the importance of business ethics.

CO3	Appraise the IS-LM Model of Commodity Market and Money Markets.
CO4	Analyze the relationship between unemployment, inflation, and the labor market, and understand how commodity, labor, and money markets interact to shape output, prices, and employment in the real economy.

Course Type: Major III – 60%
Course Name: Ancient Civilization Egypt & Greece (Earliest Times to 500 C.E) Major III
Course Code: HIS 205
Department: History
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Understand the significance of the world's ancient civilisations.
CO2	Analyse the trends in the early world civilisations.

OR

Course Type: Major III – 60%
Course Name: Hindi Nibandh
Course Code: HIN - 205
Department: Hindi
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	हिंदी निबंध की संरचना एवं स्वरूप से अवगत होंगे।
CO2	हिंदी निबंधों की विकास-यात्रा एवं प्रकारों से परिचित होंगे।
CO3	निबंधों के माध्यम से हिंदी साहित्य और समाज में हुए परिवर्तनों से अवगत होंगे।
CO4	निबंध लेखन के लिए प्रेरित होंगे।

OR

Course Type: Major III – 60%
Course Name: Politics In Digital Age
Course Code: POL 205
Department: Political Science
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Describe the key features of the digital age and explain its impact on politics and governance

CO2	Analyze the role and significance of e-governance and digital public infrastructure in administrative reforms
CO3	Evaluate the influence of digitalization on political processes, including elections, digital campaigning, and public opinion
CO4	Critically assess challenges such as misinformation, digital surveillance, AI, and the role of big data companies in shaping political discours

---

OR

Course Type: Major III – 60%
Course Name: Technology and Society
Course Code: SOC-205
Department: Sociology
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Understand the concepts and theories of technology and society.
CO2	Explain how technology influences various dimensions of human life.
CO3	Sensitized to risks and threats of digital access.
CO4	Exposed to recent developments in technology.

OR

Course Type: Major III – 60%
Course Name: History of Konkani Periodicals
Course Code: KON 205
Department: Konkani
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	कोंकणी नेमाळ्यांची वळख जाता. (Konkani magazines are introduced to children.)
CO2	देवनागरी, रोमी आनी कन्नड लिपींतिल्या नेमाळ्यांचो नियाळ घेतात. (Journals in devanagari, roman and kannada scripts are reviewed.)
CO3	भाशेचे उदरगतींत कोंकणी नेमाळ्यांचें योगदान अभ्यासतात. (The contribution of Konkani magazines to the development of language is studied.)
CO4	कोंकणी डिजीटल नेमाळ्यांची मोलावणी करतात.(Konkani digital magazines are evaluated.)

OR

Course Type: Major III – 60%
Course Name: Dalit Literature
Course Code: ENG205
Department: English
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Identify the concerns and problems of the marginalized societies in India.
CO2	Develop sensitivity and consciousness with regard to the diversity and hierarchy of cultures and communities in India.

| CO3 | Critically analyze the literature of the Dalits in India. |
| CO4 | Examine disparity in society with respect to the Dalits. |

OR

Course Type: Major III – 60%
Course Name: Development Economics
Course Code: ECO- 205
Department: Economics
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Explain the difference between growth and development.
CO2	Compare, contrast and analyse the theories of economic development.
CO3	Assess balanced and unbalanced growth
CO4	Evaluate different stages of growth

OR

Course Type: Major– 40%
Course Name: History of Marathas (1630-1818 CE)
Course Code:
Department: History
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Discuss the historiography of Marathas, establishment of Swarajya by Shivaji, and the administration laid down by him.
CO2	Analyse the Maratha-Mughal conflict.
CO3	Examine the expansion of the Marathas under the Peshwas.
CO4	Evaluate the Socio-economic and cultural achievements of the Marathas

---

OR

Course Type: Major– 40%
Course Name: Macro Economics-II
Course Code: ECO 203
Department: Economics
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Explain the key macroeconomic determinants of the demand for money
CO2	Evaluate the concepts of aggregate demand and aggregate supply and the manner in which macroeconomic equilibrium is attained.
CO3	Appraise the IS-LM Model of Commodity Market and Money Markets.
CO4	Analyze the relationship between unemployment, inflation, and the labor market, and understand how commodity, labor, and money markets interact to shape output, prices, and employment in the real economy.

OR

Course Type: Major– 40%
Course Name: Sathottary hindi Kavya
Course Code: HIN 202

Department: Hindi

Course Outcomes:

Upon completion of the Course the students will be able to:

CO1   Aware of the modern environment of post-sixties Hindi poetry.

CO2   Familiar with famous poets of post-sixties Hindi poetry.

CO3   Assess the life values contained in the selected poems.

CO4   Develop the ability to analyse various thoughts and concerns through the selected poems.

Course Type: Minor

Course Name: Social Skills & Etiquettes

Course Code: SOC- 221

Department: Sociology

Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Discern the need to acquire social etiquette in everyday life.
CO2	Acquire an understanding of social communication skills.
CO3	Know the types of social etiquettes.
CO4	Locate etiquette in global perspective.

OR

Course Type: Minor

Course Name: News Reporting and Editing

Course Code: ENG221

Department: English

Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Adopt at gathering and reporting news.
CO2	Demonstrate skills in editing of reports
CO3	Demonstrate different writing skills needed in journalism
CO4	Distinguish between different types of writing.

OR

Course Type: Minor

Course Name: Financial Economics

Course Code: ECO 103

Department: Economics

Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Identify investment in various securities.
CO2	Classify the basic types of financial instruments in India's money market and capital market.
CO3	Calculate the returns and risks of investments, as well as the time value of money.
CO4	Calculate and interpret financial ratios and understand the financial health of the company.

OR

Course Type: Minor

Course Name: Usage of Konkani in computer
Course Code:
Department: Konkani
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1 | Learn about the primary scripts used for Konkani (Devanagari and Roman) and the basics of character encoding to represent Konkani text on computers.

CO2 | Familiar with common keyboard layouts used for typing Konkani in different scripts.

CO3 | Understand and be able to use basic input methods (like on-screen keyboards or phonetic typing) to type Konkani text.

CO4 | Use basic word processing software (like Microsoft Word, Google Docs) to type, edit, and format simple Konkani documents.

CO5 | Send and receive simple messages in Konkani using email or basic messaging platforms

---

OR

Course Type: Minor
Course Name: Community Engagement & Political Participation
Course Code: POL 221
Department: Political Science
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Explain the concept, significance, and various modes of community engagement in democratic societies
CO2	Identify and analyze the barriers to effective community engagement and explore strategies for conflict resolution and trust-building
CO3	Differentiate between community engagement and political participation, and evaluate mechanisms that strengthen democratic participation. \
CO4	Assess the importance of inclusive political participation, with specific reference to youth, women, children, tribal groups, and persons with special needs, using real-world Case studies

---

OR

Course Type: Minor
Course Name: Prayojanumulak Hindi
Course Code: HIN-221
Department: Hindi
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1 | छात्र प्रयोजनमूलक हिंदी की अवधारणा एवं स्वरूप से अवगत होते हुए उसका प्रयोग करने में सक्षम होंगे।

CO2 | छात्र व्यक्तिगत, व्यावसायिक एवं कार्यालयीन लेखन में निपुण होंगे।

CO3 | छात्र संचार एवं इंटरनेट प्रयोग में कौशल अर्जित करते हुए अपने कार्य में उसका उचित उपयोग कर पाएंगे।

CO4	छात्र प्रयोजनमूलक हिंदी का व्यावहारिक प्रशिक्षण लेकर रोजगार अर्जन की दृष्टि से सक्षम होंगे।

OR

Course Type: Minor
Course Name: Heritage Tourism in India
Course Code: HIS 221
Department: History
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Comprehend Heritage Tourism and its significance.
CO2	Locate Tourism destinations of India
CO3	Analyze the impact of Heritage Tourism
CO4	Design Heritage Tourism plan and itinerary

Course Type: AEC
Course Name: Sambhashan Kala
Course Code: HIN 101
Department: Hindi
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Understand & develop the process of communication.
CO2	Apply effective communication skills in different environments.
CO3	Be proficient in the skills required for different areas.
CO4	Gain knowledge about different sectors related to career growth. Communicate fearlessly in society

OR

Course Type: AEC
Course Name: Basic Knowledge of Konkani
Course Code: KON-252
Department: Konkani
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Greet people and say goodbye using common Konkani phrases. Students will be able to introduce themselves and others, providing basic personal information such as name, origin, and occupation. They will be able to engage in simple conversations on familiar topics like family, hobbies, weather, and daily routines
CO2	Acquire a basic vocabulary related to everyday situations, including numbers, days of the week, months, colors, family members, common objects, and food.
CO3	Understand the fundamental structure of Konkani sentences.Students will learn about basic nouns and pronouns and their usage.They will be introduced to the present tense and possibly the past and future tenses in a simple form.

CO4	Familiar with the basic sounds of the Konkani language and improve their pronunciation.
CO5	Introduce reading simple words and sentences, potentially in the Devanagari script or Roman script depending on the dialect and teaching method.
CO6	Understand the foundational ability and use simple Konkani in everyday situations, enabling them to communicate at a basic level.

OR

Course Type: AEC
Course Name: Functional English II: Communicative English 1.2
Course Code: ENG252
Department: English
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Apply advanced grammar skills effectively.
CO2	Edit prose passages with clarity and accuracy.
CO3	Write proposals with proficiency.
CO4	Explore the field of research with confidence.

STREAM: BACHELOR OF COMMERCE (BCOM)

COURSE OUTCOMES

Semester III

Course Type: Major
Course Name: Government Accounting
Course Code: CFA -201
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand the basic concepts and terminology of government accounting.
CO2	Acquire complete knowledge about the preparation of Receipts and Payments account of panchayats and Income and Expenditure account and Balance sheet of Municipalities.
CO3	Understand the general outline of the public works system of account, techniques of tendering and works expenditure, capital budgeting and project management.
CO4	Acquire practical knowledge of the accounts of Electricity Corporations and State Transport Corporation as per Company Act 2013.

Course Type: Major
Course Name: Financial Statement Analysis
Course Code: CFA-203
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1 Understand the conceptual framework of financial statement analysis.
CO2 Understand the importance of ratios in analysing financial statements.
CO3 Acquaint with the latest tools and methods of analysing financial information.
CO4 Understand the intricacies in the preparation of cash flow statement as per AS-3.

Course Type: Major
Course Name: Methods of Costing -I
Course Code: CCA 201
Department: Commerce
Course Outcomes:
After completion of this course, learners will be able to :

CO1: Prepare the cost sheet, tenders and quotations and estimated cost sheet.
CO2: Prepare Batch and Job Cost Sheet.
CO3: Record Journal entries under integral accounting system and prepare ledget accounts under non-integral accounting system.
CO4:Prepare reconciliation statement, reconciling profits shown by cost accounts and financial accounts.

Course Type: Major
Course Name: Public Economics
Course Code: COM-200
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Acquaint learners with fundamental concepts in Public Economics.
CO2	Impart knowledge of public expenditure and public revenue.
CO3	Familiarize learners with taxation and fiscal policy.
CO4	Introduce learners to the issues in public debt and fiscal federalism.

Course Type: Major paper
Course Name: Microeconomics-1
Course Code: COM-201
Semester:III
Course outcome:
After completion of the course the students will be able to:

CO1	Understand consumer behaviour
CO2	Explain the role of production and costs in output determination
CO3	Assess operation of economy under perfect competition
CO4	Evaluate operation of economy under monopoly

Course Type: Major
Course Name: Marketing Management
Course Code: CBM-201
Department: Commerce
Course Outcomes:
After completion of this course, the learners will be able to:

CO1. Acquaint the students with various concepts of marketing management.
CO2. Familiarise the students with elements marketing mix.
CO3. Enable students to understand buyer behaviour and market intelligence.
CO4. Develop the basic skills required to make career in marketing.

Course Type: Minor
Course Name: Business Finance
Course Code: CBM-211
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand the basics of Business Finance so as to take adequate financial decisions at corporate level.
CO2	Understand the different types of capital structures and their implications for business growth and sustainability.
CO3	Analyse the concepts of capitalization and capital structure and understand different theories related to capitalization.
CO4	Develop and evaluate alternative solutions to financial challenges.

Course Type: Minor
Course Name: Business Statistics I
Course Code: COM-213
Department: Mathematics
Course Outcomes:
Upon the completion of the course students will be able to

CO1	Provide common statistical literacy and demonstrate the relevance of statistical findings for business problem solving and decision making.
CO2	Develop statistical thinking and practical computational skills for a systematic problem-solving capability to analyse and interpret data for various business problems and managerial decisions.
CO3	Apply technology to statistical analysis and problem solving.
CO4	Provide business analysts a toolkit of descriptive and inferential analysis.

Course Type: Minor
Course Name: Accounting for Service Organisation (VET)
Course Code: COM-221
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Aquaint basic knowledge of various provisions to prepare and finalise accounts of banking companies	
CO2	Prepare final accounts of general insurance companies	
CO3	Familiarise with finalizing of accounts of hotels and educational institutions	
CO4	Prepare and finalise the accounts of professionals	

Course Type: Minor
Course Name: Strategic Performance Management (VET)
Course Code: CCA-221
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Provide in-depth understanding about basics of strategic performance management	
CO2	Provide various strategic performance management evaluation and improvement tools	
CO3	Acquaint knowledge of bench marking and bench improvement tools	
CO4	Equip with performance of enterprises risk management	

Course Type: MC
Course Name: Fundamentals of Digital Marketing
Course Code: COM-232
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Explain the basic concepts of Digital Marketing.
CO2	Identify various elements of Website Design.
CO3	Identifyvarious elements of Digital Campaigning.
CO4	Evaluate various platforms for Social Media Marketing.

Course Type: MC
Course Name: Personal Investment and Tax Planning
Course Code: COM-234
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1 To acquaint basic aspects of personal investment planning.
CO2 To familiarize learners with basics of taxation.
CO3 To impart knowledge and develop skills for effective personal tax planning.

Course Type: SEC
Course Name: Personal Financial Planning
Course Code: COM-243
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand the concept of Personal Financial Planning and the Time Value of Money.	
CO2	Asses the Return and Risk Associated with Various Investment Vehicles.	
CO3	Comprehend with various Personal Financial Planning Options.	
CO4	Formulate a PersonalFinancial Plan.	

Course Type: SEC
Course Name: Accounting Software Application
Course Code: COM-241
Course Outcomes:
After completion of this course, the learners will be able to:

CO1	Explain the basic concepts of accounting and inventory management in accounting software package.
CO2	Record various kinds of business transactions, vouchers and generate financial statements reports in accounting software package
CO3	Record Accounting transactions, vouchers with GST and generate reports in Accounting Software Package.
CO4	Apply knowledge of accounting software packages in Real-world Scenarios.

Semester IV

Course Type: MAJOR
Course Name: Indirect Taxes
Course Code: COM-204
Course Outcomes:
After completion of this course, the learners will be able to:

CO1	Understand the basic concepts of Goods and Services Tax.
CO2	Understand various provisions under Goods and Services Tax Act
CO3	Understand the compliance procedure of GST
CO4	Understand the basic concepts of Customs Duty.

Course Type: Major
Course Name: Indirect Taxes (Cost Accounting)
Course Code: COM-204
Course Outcomes:
Upon the completion of the course students will be able to:

C O1	Understand the basic concepts of Goods and Services Tax.
C O2	Understand various provisions under Goods and Services Tax Act.
C O3	Understand the compliance procedure of GST.
C O4	Understand the basic concepts of Customs Duty.

Course Type: Major
Course Name: Event Management (Business Management)
Course Code: COM-204
Course Outcomes:
Upon the completion of the course students will be able to:

C O1	Explain basic concepts of management, planning, production, marketing and financing of events.	
C O2	Make use of appropriate tools to design, plan and execute events.	
C O3	Identify key elements of event budget and event financing.	
C O4	Develop entrepreneurial skills in organizing events.	

Course Type: Major
Course Name: Methods of Costing -II
Course Code: CCA 203
Department: Commerce
Course Outcomes:
After completion of this course, the learners will be able to :

CO1: Prepare the process cost accounts.
CO2: Prepare inter-process profits accounts and equivalent production.
CO3: Prepare contract cost accounts.
CO4: Prepare operating cost statement for service organisations.

Course Type: Major
Course Name: Marginal Costing
Course Code: CCA-205
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Impart knowledge of the Marginal costing technique.
CO2	Familiarize learners with various applications of Marginal Costing technique.
CO3	Familiarize learners with applications of Marginal Costing in decision making.
CO4	Enable students with capital budgeting decisions.

Course Type: Major
Course Name: Service Marketing
Course Code: CBM-203
Department: Commerce
Course Outcomes:
After completion of the course the students will be able to:

CO 1	Learn the fundamental concepts of services marketing.	
CO 2	Understand the services marketing mix.	
CO 3	Create awareness on the practical aspects of marketing services in multiple sectors.	
CO 4	Learn skills required for marketing of services.	

Course Type: Major paper
Course Name: Microeconomics-II
Course Code: COM-203
Semester: IV
Course outcome:
After completion of the course the students will be able to:

CO1	Explain the outcomes in the presence of market imperfections
CO2	Evaluate market failures and role of government
CO3	Understand role of inputs
CO4	Assess Impact of inequality and international trade
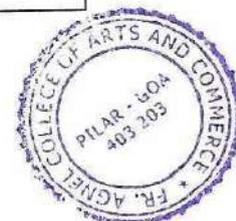

Course Type: Major
Course Name: Fundamentals of Macroeconomics for Business
Course Code: COM-202
Department: Economics
Course Outcomes:
Upon completion of the Course the students will be able to:

CO1	Gain knowledge of various macroeconomic principles and the macroeconomic equilibrium analysis.
CO2	Understand the economic dimensions of inflation, unemployment and the trade-off between the two macroeconomic variables.
CO3	Analyze the theoretical approaches to money, consumption and the impact of economic policies on investment.
CO4	Acquire a better understanding of the working of an open economy

STREAM: BACHELOR OF COMPUTER APPLICATIONS (BCA)
COURSE OUTCOMES

Semester III

Course Type: Major
Course Name: Data Structures
Course Code: CSA200
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand the concept of Algorithms.
CO2	Discuss linear and non-linear data structure
CO3	Implement data structure concepts.
CO4	Apply suitable data structures for real-world problem solving.

Course Type: Major
Course Name: Database Management Systems
Course Code: CSA201
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Remember the basic concepts and terminologies of DBMS, ERD, Normalization, and Transaction Processing.
CO2	Understand ER diagrams, Normalization, relational schema design, Relational Operations, Transaction Processing, and SQL concepts.
CO3	Apply & discuss the concepts of ER Diagram, Relational Model and Normalization.
CO4	Design relational database and formulate queries on the database and data using different SQL constructs mentioned in the syllabus.

Course Type: Minor
Course Name: Reasoning Techniques
Course Code: CSA211
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Assess problem statement and make logical decisions
CO2	Interpret given data and derive conclusions
CO3	Understand Data interpretation and Data sufficiency
CO4	Solve problems using mathematical logic

Course Type: MC
Course Name: Business Ethics and Governance
Course Code: COM233
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Define and differentiate between different aspects related to business ethics and governance.
CO2	Discuss the ethics involved in the global economy.
CO3	Analyze the ethical issues involved in different functional areas of business.
CO4	Apply the learnt knowledge when-ever required.

Course Type: AEC
Course Name: Sampreshan Kaushal
Course Code: HIN251
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Develop communication skills.
CO2	Understand the process of communication and its effect on giving and receiving information.
CO3	Apply effective communication skills in a variety of public and interpersonal settings.
CO4	Develop their listening, speaking and questioning skills.

Course Type: AEC
Course Name: संभाषण कौशल्यां (COMMUNICATION SKILLS)
Course Code: KON211
Course Outcomes:
Upon the completion of the course students will be able to:

CO1   Develop a comprehensive understanding of essential communication tools and theories to effectively navigate complexities in communication.

CO2   Enhance and cultivate communication skills necessary for successful personal, social, and professional interactions.

CO3   Demonstrate proficiency in Listening, Speaking, Reading, and Writing

(LSRW) skills in professional settings, such as interviews, group discussions, and public speaking.

CO4   Apply diverse verbal and non-verbal communication strategies to effectively express thoughts, emotions, and ideas in interpersonal and professional settings.

CO5   Develop writing competencies like report writing, framing CVs, memos, and applications properly.

Course Type: SEC
Course Name: Multimedia Applications
Course Code: CSA241
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Introduce terminologies and technologies in multimedia.
CO2	Learn different types and forms of multimedia.
CO3	Learn storage and access mechanisms of each multimedia file type.

Semester IV

Course Type: Major
Course Name: Web App Development
Course Code: CSA202
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand the Fundamentals of client-side and server-side technologies
CO2	Understand dynamic and interactive web experiences using JavaScript and client-side frameworks.
CO3	Design web applications using server-side technologies and databases.
CO4	Apply secure web application deployment and maintenance.

Course Type: Major
Course Name: Agile Methodologies
Course Code: CSA203
Course Outcomes:
Upon the completion of the course students will be able to:

CO1   Explain the principles, values, and practices of Agile Methodologies and distinguish between traditional and agile approaches in software development.

CO2   Analyze the role of knowledge management and requirement engineering in agile environments and apply agile techniques for product development and prioritization.

CO3   Explore agile testing strategies, including Extreme Programming practices, CI/CD pipelines, and Test-Driven Development for ensuring software quality.

| CO4 | Use agile project management tools to plan, execute, test, and document software projects through practical implementation of Scrum, Backlogs, Sprints, and Agile testing activities. |

Course Type: Major
Course Name: Object-Oriented Concepts
Course Code: CSA204
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Remember Object-Oriented Programming concepts.
CO2	Understand object-oriented paradigms: abstraction, encapsulation, inheritance, polymorphism, and apply them in problem-solving
CO3	Apply object-oriented solutions for real-world problems.
CO4	Implement appropriate OO concepts in applications.

Course Type: Major
Course Name: Web Technology
Course Code: CSA205
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Introduce the fundamentals of web technology, scripting languages, and web publication.
CO2	Create dynamic and interactive web experiences using JavaScript and client-side frameworks.
CO3	Apply client and server-side programming languages that can be used to create websites and web applications.
CO4	Explore MVC Architecture for dynamic and interactive user interfaces using views and templates.

Course Type: Minor
Course Name: Advanced Javascript
Course Code: CSA-223
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand and execute JavaScript code in both browser and command-line environments.
CO2	Perform numerical operations, handle string manipulations, and apply Boolean logic.
CO3	Analyze nested objects, object methods and property deletion.
CO4	Apply ES5 and beyond features of JavaScript.

Course Type: AEC
Course Name: कोंकणी भाशेचें मुळावे गिन्यान (Basic knowledge of Konkani)

| CO1 | Introduce themselves and others, providing basic personal information such as name, origin, and occupation |

Course Code: KON252
Course Outcomes:
Upon the completion of the course students will be able to:

Course Type: AEC
Course Name: Sambhashan Kala
Course Code: HNS101
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand & develop the process of communication.
CO2	Apply effective communication skills in different environments.
CO3	Be proficient in the skills required for different areas.
CO4	Gain knowledge about different sectors related to career growth. Communicate fearlessly in society.

Programme and Course Outcomes

(Semester V-VI under CBCS for Third Year)

STREAM: BACHELOR OF COMPUTER APPLICATIONS (BCA)
DEPARTMENT OF COMPUTER APPLICATIONS
PROGRAMME OUTCOMES:

Upon completion of the programme the students will be able to:

PO1	Knowledge- Apply knowledge of Computer Science and current IT technologies to meet the needs of industry, trade, and commerce.
PO2	Critical thinking, creativity and problem solving: Identify problems, determine feasibility, analyse, design/ development of solutions for problems and implement them using appropriate technologies to meet societal and economical needs.
PO3	Individual, ethics and teamwork: Communicate and function effectively as an individual, and in teams to manage small and medium-sized projects in multidisciplinary environments.
PO4	Modern tool usage–Use the techniques, skills, and modern computing tools necessary for innovative software solutions.
PO5	Career-Readiness and Employability: Pursue further studies and acquire skills meeting industry-requirements
PO6	Holistic Growth: To impart knowledge, and skills, and also inculcate values and competencies to meet the evolving needs of the industry and society.
PO7	Life-long learning: Recognise the need for, prepare and engage in continuous learning as a computing professional

PROGRAMME SPECIFIC OUTCOMES

Upon the completion of the programme students will be able to;

PSO 1	Identify, formulate, analyse, design, and test solutions to computational problems using the concepts and principles of computer science
PSO 2	Design, select and apply computer tools and technologies to automate manual processes and improve existing computerised processes.
PSO 3	Discover and understand new technology, and develop a skill set via practical experience to gain fruitful employment.
PSO 4	Analyse the effects of computational solutions on society and the environment while performing effectively as a member and team leader of the software development team.

Semester V

Course Name: Web Technology
Course Code: CAC117
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Explore the basics of the internet and web terminologies.
CO2	Design XML Structure, DTD, Schema and XSTL.
CO3	Explore scripting language concepts for developing client-side applications and to
CO4	Explore security issues in web applications.

Course Name: Information Systems
Course Code: CAC118
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Point out need of MIS in organisation.
CO2	Describe essential components comprising Management Information Systems.
CO3	Measure role of MIS in effective decision making.
CO4	Evaluate the role of data warehousing in MIS.

Course Name: Web Technology Laboratory
Course Code: CAC119
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Explore different types of Protocols, web Brower's, text editors web hosting and web security.
CO2	Design XML Structure, DTD, Schema and XSTL.
CO3	Demonstrate the important HTML tags for designing static pages and separate design from content using Cascading Style sheet.
CO4	Use web application development software tools i.e., Ajax, PHP and XML etc. and identify the environments currently available on the market to design web sites.

Course Name: Computer Animation
Course Code: CAD104
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Define terminologies and aspects of computer animations
CO2	Use different tools and techniques of animating graphics
CO3	Implement the concepts of colors, shapes and digital imagery,
CO4	Design and develop 2D animations using different tools.

Course Name: Human Computer Interaction
Course Code: CAD106
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Learn the foundations of Human Computer Interaction, design technologies and user interface design and development.
CO2	Draw and create prototypes for user interfaces.

CO3	Evaluate various design technologies for individuals and persons with disabilities and develop systems for their aid.
CO4	Apply the guidelines for user interface design and develop easy to use interfaces.

Course Name: Project
Course Code: CAP101
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Understand the basic principles of digital marketing and advertising.
CO2	Comprehend the concepts of digital marketing techniques like AdWords, search advertising, display advertising, concept of Ad campaign structure and quality, bidding, relevance and ranking.
CO3	Apply knowledge of searching with AdWords
CO4	Explore The concept of Search Engine Optimization and Link building

Semester VI

Course Name: Multimedia Technology
Course Code: CAC120
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Define both theoretical and practical aspects in designing multimedia Systems.
CO2	Identify a range of concepts, techniques and tools for creating and editing the inter
CO3	Design and create interactive multimedia products.
CO4	Describe the emergence of multimedia technologies using contemporary hardwar

Course Name: E-Commerce Applications
Course Code: CAC121
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Describe the basics of e-commerce and explore the different models of e-commer
CO2	Explore the design principles of e-commerce websites.
CO3	Describe the different electronic payment systems.
CO4	Explore the security issues and threats to e-commerce applications and methods to

Course Name: Multimedia Technology Laboratory
Course Code: CAC122
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Describe all aspects of text, audio, images and video.
CO2	Use various multimedia authoring tools.
CO3	Compose time-based and interactive multimedia components.
CO4	Demonstrate proficiency with common software applications used to create

Course Name: Web Frameworks
Course Code: CAD114
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Demonstrate the basics of asynchronous call and non-blocking I/O.
CO2	Construct MVC and responsive design to scale.

CO3	Develop expertise in document oriented non-relational database management system.	
CO4	Design a complete web application that includes front-end, backend and data-exchange	

Course Name: Data Science Concepts
Course Code: CAD110
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Describe the fundamentals of Data Analysis and the concept of Machine Learning algorithms for performing complex data analysis.
CO2	Learn Analysis insight into a data set and its underlying structure.
CO3	Compare and contrast various supervised and unsupervised algorithms.
CO4	Discover interesting patterns, correlations, associations and causal structures in the data found in data repositories.

Course Name: Project
Course Code: CAP101
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Demonstrate skill and knowledge of current information and technological tools and techniques of their selected project topic.
CO2	Design engineering solution to complex problems utilising a systematic and integrated approach.
CO3	Demonstrate the knowledge, skills and attitudes of a professional engineer by delivering a product that has passed through the design, analysis, testing and evaluation.
CO4	Develop a project report.

STREAM: BACHELOR OF ARTS (BA)

PROGRAMME OUTCOMES

The undergraduate Programmes in Social Sciences and Languages will equip the students with holistic education through the following Outcomes:

PO 1	**Knowledge**	Demonstrate strong subject-based knowledge in the field of Social Sciences, Humanities and Languages
PO 2	**Decision Making**	Critically interpret advanced theoretical concepts and develop decision-making capabilities.
PO 3	**Individual Ethics & Team Work**	Ability to work effectively with coordinated effort as a member of a team.
PO 4	**Learner and Society**	Sensitizing students with respect to local, national and international events and issues.
PO5	**Communication and Soft Skills**	Demonstrate the ability to listen carefully, read and write analytically, and present complex information in a clear and concise manner to different groups.
PO6	**Project Management and Research**	Use research methodology to carry out research in their respective subject and find solutions on specific issues
PO7	**Lifelong Learning**	Acquire human values framing the base to deal with various problems in life with courage and humanity.

DEPARTMENT OF HISTORY

PROGRAMME SPECIFIC OUTCOMES

Upon completion of the Programme the students will be able to:

PSO1 Develop an interest in historical events which will enable the students to make a comparative study of the past and present societies and cultures.

PSO2 Analyse various sources thus developing a spirit of critical inquiry and historical research

PSO3 Equip the students with skills, confidence, and the ability in using digital technology for communication.

PSO4 Nurture analytical qualities, research and writing skills through assignments & project work.

DEPARTMENT OF POLITICAL SCIENCE

PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme the students will be able:

PSO1 To understand the evolution of key concepts in Political Theory, the Constitution of India, Human Rights, Public Administration, Western Political Thought, International Relations and its impact on India's Foreign Policy.

PSO2 To critically evaluate and analyze political thought, theory, institutions and processes.

PSO3 To sensitize students on the Constitutional and Social issues in India

PSO4 To generate possible solutions to the problems plaguing political institutions and processes at the international, national and local level.

PSO5 To critically analyze the impact of International and National events or issues on day to day life.

PSO6 To Analyze India's role in the emerging global political economy.

PSO7 To assess the emerging global challenges such as Terrorism, Environmental issues and Global inequality and Refugee Crisis.

DEPARTMENT OF ECONOMICS
PROGRAMME SPECIFIC OUTCOMES

On completion of the Programme the student will be able to:

PSO 1 Develop intellectual ability through sound understanding of core economic concepts and theories.

PSO 2 Develop critical thinking and problem-solving skills by building ability to use the economic tools of analysis to examine and interpret economic issues.

PSO 3 Build ability to put forth well-organized arguments on economic, business and finance issues and to carry out basic research in economic areas.

PSO 4 Apply knowledge of economic theory to practice in understanding and reasoning out real world issues, problems and events related to society, business and economy.

DEPARTMENT OF SOCIOLOGY
PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme;

PSO1 Students will be able to demonstrate strong conceptual knowledge of the land and its people of Goa.

PSO2 Students will be able to evaluate the social-cultural institutions of Goa.

PSO3 Students will be able to take evaluate and take decision on the processes of change that affects Goan society.

PSO4 Students will be able to understand and demonstrate knowledge on issues and concerns affecting Goan Society.

DEPARTMENT OF HINDI
PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme the students will be able to:

PSO 1 Knowledge and Creativity: The department aims to develop a theoretical and practical understanding of the subject's concepts, principles and theories to understand the Hindi language and literature. Using cognitive skills to develop creativity.

PSO 2 Critical Thinking and Research through Education: The department tries to develop different methodologies of critical thinking to motivate them to be focused on nurturing analytical reasoning and critical thinking.

PSO 3 Human Values and Life Skills: Inculcating human values and ethics to the holistic development of students through Hindi Literature. Impart value-based learning to train students to be socially responsible citizens.

PSO 4 Effective skills in Various fields: It aims to help students carve out an identity for themselves in various fields and utilise their skills effectively in the workplace.

DEPARTMENT OF ENGLISH

PROGRAMME SPECIFIC OUTCOMES

After completion of this programme, students will be able to:

PSO 1 Infer the unique perspective of diaspora writers and appreciate the aesthetics of Indian English poetry.

PSO 2 Comprehend and examine the pattern of development and change in the themes and literary techniques used by the nineteenth-century British novelists and poets.

PSO 3 Infer the overtones prevalent in the New World audience through an understanding of the nuances of Identity, Region, Race and Gender.

PSO 4 Communicate their perspective on concepts of migration, identity, memory, nostalgia and appreciate global intersectionality stemming out of increased migration and cross-cultural living.

DEPARTMENT OF KONKANI

PROGRAMME SPECIFIC OUTCOMES

On completion of the Programme the student will be able to:

PSO 1 Understand Society,culture and literature at the global as well as local context..

PSO 2 Acquire command over the use of Konkani for creative writing, develop critical skills.

PSO 3 Develop good interpersonal Skills and apply it to maintain societal relations.

PSO 4 Learn translation skills and also develop familiarity with administrative language.

DEPARTMENT OF MATHEMATICS
PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme, the students will be able to:

PSO 1 Introduce concepts of mathematics with emphasis on analytical ability and use mathematical techniques to solve well-defined problems.

PSO 2 Identify the applications of mathematics in other disciplines.

PSO 3 Enable students to identify and relate real-time business applications.

PSO 4 Apply acquired skills for practical economic problems.

DEPARTMENT OF INFORMATION TECHNOLOGY

PROGRAMME SPECIFIC OUTCOMES

Upon the completion of the programme students will be able to;

PSO 1 Understand Fundamental Technology Concepts, Emerging Technologies in Computer Field and practical skills.

PSO 2 Describe computer networking, e-Technology and understand principles of cyber security.

PSO 3 Develop specific skills and competencies in hardware and software used in publication.

PSO 4 Understand and analyze different component of multimedia elements.

COURSE OUTCOMES:

Semester V

Department of Konkani
Course Name: History of Konkani Language and Literature
Course Code: KOC105
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Students are made aware of the History of Konkani Language and Literature.
CO2	Students learn about different Konkani writers and their contribution towards Konkani language.
CO3	Students learn about the contribution of Missionaries towards Konkani Language through Grammar and Vocabularies and Religious literature.
CO4	Students learn about Konkani Ramayana and Mahabharatha along with Dnyaneshwari and Lilacharitr.

Course Name: Prashasakiy Vevharantli Konkani
Course Code: KOD101
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Gain an understanding of writing correspondence letters in konkani.
CO2	Gain familiarity with the technical vocabulary used in administration.
CO3	Have an understanding of practical letter writing formats like reminders Complaint letter.
CO4	Apply their translation skills.

Department of Hindi
Course Name: DSE Rachnatmak Lekhan
Course Code: HND101
Department: Hindi
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Develop practical understanding of creative writing skills.
CO2	Familiar with the different methods of writing and able to write stories, advertisements.
CO3	Acquire in-depth knowledge of contemporary issues in mass media.
CO4	Develop effective communication skills in Hindi.

Course Name: DSC Aadhunik Hindi Kavya Kaa Itihaas
Course Code: HNC105
Department: Hindi
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Gain theoretical knowledge about the evolution and development of Poetry.
CO2	Learn about modern Hindi poetry and poets.
CO3	Elaborate the literary background of Modern Hindi poetry.
CO4	Describe the influence of contemporary social and political situations

Department of English
Course Name: American Literature
Course Code: ENC105
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Get an understanding of the intellectual and literary currents of America from the time of its 'discovery' to the present day.
CO2	To expose and sensitize students to significant texts of representative authors.
CO3	To help students understand different ages and movements in America.
	To help students understand Americanness of American Literature.

Course Name: DSE Modern Indian Writing in English Translation
Course Code: END103
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Examine the aesthetics of translation.
CO2	Scrutinize the nodal thematic preoccupations and trends like caste, gender and resistance in Modern India.
CO3	Explore the linguistic peculiarities of select languages of India.
CO4	Study the unique stylistic elements in the literary texts.

Department of History
Course Name: Indian National Movement (1857-1947)
Course Code: HSC105
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Examine the events which shaped and moulded Indian history.
CO2	Identify the personalities, ideologies and movements that advanced the cause of India's freedom
CO3	Analyse the contributions of Indians from different sections of society towards India's freedom struggle.
CO4	Summarise the efforts of the Indians to free colonial India from the British rule.

Course Name: History of Goa (From the Phase of Resistance to Statehood and Beyond)
Course Code: HSD101
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Enumerate the local history of Goa and its various phases.
CO2	Explain the indigenous responses to colonial challenges since the 16th century
CO3	Analyse post liberation issues faced by the state of Goa.
CO4	Evaluate the transition from colonial rule to self rule.

Department of Political Science
Course Name: Western Political Thinkers (Plato to Locke)
Course Code: POC105
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Understand the evolution of key concepts in Western Political Thought.
CO2	Apply the key concepts of western political thought (ancient, medieval and modern) to contemporary times.
CO3	Analyse the social, economic and political conditions which influenced the thought of various Western Political Thinkers.
CO4	Compare the political thought of the Western Political Thinkers

Course Name: International Relations
Course Code: POD101
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	To examine the growing threats to international peace from conventional and non-conventional agencies
CO2	To obtain a critical understanding of the theoretical background of the key concepts in International Relations.
CO3	To analyze and Compare the role played by state and non-state actors in International relations.
CO4	To critically evaluate the significance of multilateral institutions and processes in the era of Globalization.

Course Name: Public Administration
Course Code: POD103
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Understand the key concepts and practices of Public Administration.
CO2	Relate to the various processes of Public Administration.
CO3	Analyze the role of specific institutions of Public Administration.
CO4	Assess the emerging issues and trends in Public Administration.

Department of Sociology
Course Name: Foundations of Sociological Thought
Course Code: SOC300
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Grasp the context of emergence of sociology as a distinctive intellectual tradition.

CO2	Understand the positivistic compulsions of early sociology.
CO3	Know verstehen as alternative methodology for sociology.
CO4	Appreciate the sociological contributions of Karl Marx.

Course Name: Rural Society in India
Course Code: SOD 102
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Familiarise students with the nature of rural societies in India.
CO2	Understand the basic nature of rural society and the challenges facing the Indian villages.

Department of Economics

Course Name: DSC Indian Economy-I
Course Code: ECC105
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Describe the basic characteristics of Indian Economy on the eve of i the and illustrate the tools for measuring economic development.
CO2	Analyse the demographic trends and the contribution of population, health and educational policies towards the development of Indian economy.
CO3	Assess the economic problems and the hindrances caused on the growth of Indian Economy
CO4	Summarize the role and importance of various sectors in the growth of Goan Economy.

Course Name: DSC/DSE- Public Finance-I
Course Code: ECC107
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Discuss the Nature and Scope of Public Finance.
CO2	Explain the Objectives and Tools of Fiscal Policy.
CO3	Demonstrate various Budgeting Techniques based on their Importance, Features, Merits and Demerits.
CO4	Evaluate Address the Budgetary Process, Budgetary Reforms and the Fiscal Federal System in India.

Course Name: DSC/DSE International Economics-I
Course Code: ECC109
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Evaluate the functioning of the global economy.
CO2	Generalize the various theories of international trade.
CO3	Summarize the barriers related to trade.
CO4	Estimate the growth in composition and direction of global trade

Department of Konkani

Course Name: History of Konkani Language and Literature- 20th Century till 2015
Course Code: KOC108
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Students are made aware of the History of Konkani Language and Literature.
CO2	Students learn about different Konkani writers and their contribution towards
CO3	Students learn different types of Literature (Poetry, Short stories, Essays etc).
CO4	They learn about Konkani Music, Art, Sports, Science, Environment, Education etc.

Course Name: Lok Vevharantli Konkani Bhas
Course Code: KOD104
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	The students are trained for careers and advanced studies in konkani, Public relations or mass media
CO2	They are ready to Explore careers in mass media.
CO3	Students become efficient in drafting official letters, wedding and Formal invitations.
CO4	Gain an understanding and become efficient in Proof reading

Department of Hindi

Course Name: DSE - Prayojanmoolak Hindi
Course Code: HND 104
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Get familiar with the concept of functional Hindi.
CO2	Describe theoretical and practical knowledge with regards to drafting of various official letters.
CO3	Gain knowledge about portals and websites of Hindi and will be able to create their own blogs.
CO4	Acquaint themselves with the theoretical aspect of Functional Hindi.

Course Name: DSC - Swatantryottar Hindi Gadya
Course Code: HN108
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Know about the political, social, literary and cultural background after independence and its effect on post-Independence Hindi prose.
CO2	Learn about the leading story writers of post-Independence Hindi stories and their contributions.
CO3	Acquire knowledge about the nature of post-independence Hindi novel, drama and will learn about the specific features of the same.
CO4	Learn about the development of post-Independence Hindi prose.

Department of English
Course Name: DSC Postcolonial Literature
Course Code: ENC108
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Understand the historical and political implications of Decolonization, Globalization on Literature.
CO2	Infer the overtones prevalent in the new world audience.
CO3	Discuss the nuances of Identity, Region, Race and Gender.
CO4	Summarize the form, structure, language, and themes of Postcolonial Literature.

Course Name: DSE Partition Literature
Course Code: ENG117
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Explore literature that deals with the complex politics that led to the partition.
CO2	Gauge the impact of events that led to the Partition, and its aftermath.
	Communicate their perspective on concepts of migration, identity, memory, nostalgia and appreciate global intersectionality stemming out of increased migration and cross-cultural living
CO3	Understand the sensibility with which the writers have chalked out the predicament of those suffering as a result of this traumatic national event.

Department of History
Course Name: India since Independence (1947-2000)
Course Code: HSC 106
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Examine the building of independent India with regard to its domestic policy.
CO2	Describe India's foreign policy vis a vis NAM and wars fought post Independence.
CO3	Relate India's economic growth and challenges faced with other countries
CO4	Evaluate the social and environmental challenges faced in India in the 21st century.

Course Name: History of Modern Japan (1852-1963)
Course Code: HSD 106
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Describe the opening and transformation of Japan.
CO2	Discuss the emergence of nationalism and militarism.
CO3	Construct Japan's foreign relations and role in the UNO
CO4	Evaluate the history of Modern Japan within the wider scope of world history.

Department of Political Science
Course Name: Western Political Thinkers (Rousseau to Marx)
Course Code: POC106
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Understand the evolution of key concepts in Western Political Thought.
CO2	Apply the key concepts of western political thought (ancient, medieval and modern) to contemporary times.
CO3	Analyse the social, economic and political conditions which influenced the thought of various Western Political Thinkers.
CO4	Compare the political thought of the Western Political Thinkers

Course Name: Indian Administration
Course Code: POD104
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Understand the key concepts and practices of Indian Administration.
CO2	Relate to the various processes of Indian Administration.
CO3	Analyze the role of specific institutions of Indian Administration.
CO4	Recommend measures available to ensure quality Administration in India.

Course Name: Indian Foreign Policy
Course Code: POD102
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	To understand the evolution of the key concepts of India's foreign policy since independence.
CO2	To discuss and explain India's stand on various crucial issues such as terrorism, energy security and nuclear threats and policy responses
CO3	To Analyze India's role in the emerging global political economy.
CO4	To evaluate India's relationship with the major powers and it's neighbours.

Department of Sociology
Course Name: Gender and Society: Some Emerging Issues
Course Code: SOD106
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	To understand the difference between sex and gender and gender socialization.
CO2	To acquire the knowledge about violence related to women and legislative provisions.
CO3	To know the lifecycle of women and health issues related to women at different stages of life.
CO4	To trace the background of the convention on the elimination of all forms of discrimination against women.

Course Name: Contemporary Sociological Theories
Course Code: SOC108
Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	To evaluate the nature and scope of contemporary sociological theories.
CO2	To compare and contrast functionalist, conflict, symbolic and exchange theory.
CO3	To identify and analyse how contemporary sociological theories and concepts are applied in the understanding the contemporary society.
CO4	To illustrate the contribution of various sociologists in the given school of thought

Department of Economics

Course Name: DSC Indian Economy-II

Course Code: ECC 106

Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Analyse the policies, progress, changing nature of agricultural sector and its contribution to the Indian economy as a whole.
CO2	Evaluate the policies, progress, changing nature of industrial sector and its contribution to the Indian economy as a whole.
CO3	Appraise the policies, progress, changing nature of service sector and its contribution to the Indian economy as a whole
CO4	Analyse the policies, progress, changing nature of agricultural sector and its contribution to the Indian economy as a whole.

Course Name: Public Finance-II

Course Code: ECC107

Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Examine the Revenue Generation process and the Theories associated with the same.
CO2	Understand the Taxation process including its importance, tax rates and effects.
CO3	Explain different Types of Direct and Indirect Taxes levied in the Indian Tax System.
CO4	Assess the Growth, Classification, Effects of Public Expenditure and Management of Public Debt in the economy.

Course Name: DSC/DSE- International Economics-II

Course Code: ECC110

Course Outcomes:

Upon completion of the Course the students will be able to:

CO1	Assess the role and importance of balance of payments.
CO2	Judge the importance of Foreign Exchange market.
CO3	Summarize the importance of investment flows across countries
CO4	Evaluate the significance of regional and multilateral trade negotiations.

Project Paper

STREAM: BACHELOR OF COMMERCE (BCOM)
DEPARTMENT OF COMMERCE
PROGRAMME OUTCOMES

Upon completion of the programme the students will be able to:

PO 1	Knowledge	Learners will gain in depth knowledge and skill set in various disciplines of Commerce, Business, Accounting, Cost Accounting, Economics, Finance, Auditing and Marketing.
PO 2	Decision making	Enhances the capability of decision making at personal and professional levels.
PO 3	Individual, ethics & team work	Learners will be responsible citizens as various academic and co-curricular courses imbibe sensitivity, moral and ethical values among them.
PO 4	Learner & society	Will be aware of the need for environmental protection and sustainable development
PO 5	Communication & soft skills	Develops communication skills and build confidence to face the challenges of the corporate world.
PO 6	Project management & finance	Learners can pursue careers as financial experts and also develop a better understanding of the markets as this course gives an in-depth understanding of the essential qualities and areas of expertise required for such jobs.
PO 7	Lifelong learning	Learners further move towards research in the field of Commerce.

PROGRAMME SPECIFIC OUTCOMES

Upon completion of the programme the students will be able to:

PSO 1 Apply qualitative and quantitative knowledge to practical situations in the discipline of Accounting, Taxation and Auditing and explore career options in skills within the various disciplines of Accounting.

PSO 2 Apply qualitative and quantitative knowledge to practical situations in the discipline of Cost Accounting, Cost Auditing, Cost Control, Management Accounting and extend acquired expertise to make effective decisions based on cost consciousness.

PSO 3 Develop strategies in the areas of Advertising Management, Retail Management, Service Marketing, Strategic Management, Supply Chain and Logistics Management, Brand Management and aspire to be resourceful and extend acquired expertise to the community.

PSO 4 Gain exposure to interpret and apply theories, framework and techniques of Economics, Mathematics and Computer Science.

Semester V

Course Type: Core Course
Course Name: Industrial Management
Course Code: CC15
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Appraise about the Industrial Management, Factory Location and Plant Layout.
CO2	Assess the Industrial Productivity and Work Environment.
CO3	Evaluate the Total Quality Management.
CO4	Critically evaluate the Industrial Safety and Occupational Health.

Course Type: Core Course
Course Name: Indian Economy and Financial Systems
Course Code: CC16
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Describe the basic characteristics of Indian Economy on the eve of i the and illustrate the tools for measuring economic development.
CO2	Analyse the demographic trends and the contribution of population, health and educational policies towards the development of Indian economy.
CO3	Assess the Assess the economic problems and the hindrances caused on the growth of Indian Economy
CO4	Summarize the role and importance of various sectors in the growth of Goan Economy.

Course Type: Discipline Specific Elective 1
Course Name: Income Tax & GST
Course Code: DSE 1
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Explain different provisions with regards to Income from House Property, Capital Gains, & Income from Other Sources.
CO2	Apply the provisions of Income Tax Act 1961, with regards to advance payment of tax, computation of tax liability, filing of returns, set off and carry forward of losses.
CO3	Apply provisions of Income Tax Act 1961, with regards to deductions from Gross Total Income.
CO4	Explain basic concepts of GST & types of GST returns.

OR

Course Type: Discipline Specific Elective 1
Course Name: Cost Accounting I
Course Code: DSE1
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Enumerate the basic Concepts of costs and the role of cost accounting in managerial decisions.
CO2	Discuss the concept of material cost and control and solve practical problems on material purchase price.
CO3	Understand the concept of stores control and the computation of stock levels and EOQ.
CO4	Solve problems on the various methods of pricing.

OR

Course Type: Discipline Specific Elective 1
Course Name: International Marketing Management
Course Code: DSE1
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Explain the basic concepts and challenges faced in International Marketing Management.
CO2	Determine the international market entry strategies and export promotion organisation.
CO3	Constitute the international products and pricing policy.
CO4	Recognise the international distribution and promotion policy.

Course Type: Discipline Specific Elective 2
Course Name: Auditing
Course Code: DSE2
Department: Commerce
Course Outcomes:
Upon the completion of the course students will be able to:

CO1	Discuss the basic principles, objectives of audit, various classes of audit and auditing standards.
CO2	Differentiate between internal control, internal check and internal audit and explain its importance while conducting audit.
CO3	Enumerate audit programme, working papers, audit evidence, audit note book, sampling and types of auditing techniques used for vouching, verification and valuation of assets.
CO4	Explain the new developments in auditing including CARO 2020.

OR

Course Type: Discipline Specific Elective 2
Course Name: Cost Accounting II
Course Code: DSE2
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Describe the concepts of labour costs such as monetary and fringe benefits, overtime, idle time and labour turnover.
CO2	Calculate Gross and Net Wages of employees and wage payment under various methods.
CO3	Analyse primary distribution of overheads and compare the various methods of secondary distribution of overheads.
CO4	Assess the overhead absorption rates and methods of absorption of overheads.

OR

Course Type: Discipline Specific Elective 2
Course Name: Retail Management Strategies
Course Code: DSE2
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Gain knowledge of making retail decision with regards to product, pricing and promotion.
CO2	Understand retail customers and their changing trends.
CO3	Apply the required customer services, handling customer's complaints and maintaining Customer's relationship into the business.
CO4	Implement and develop retail strategies.

Course Type: Discipline Specific Elective 3
Course Name: Government Accounting
Course Code: DSE3
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Understand the basic concepts, principle, terminology and accounting procedure of Government Accounting.
CO2	Solve practical problems on the preparation of Receipts and Payments Account of panchayats and Income and Expenditure Account and opening Balance sheet of Municipalities.
CO3	Understand the general outline of the public works system of account, techniques of tendering and works expenditure, solve problems on different methods of evaluation of proposal under Capital Budgeting.
CO4	Solve problems on Electricity Corporations and State Transport Corporation as per Company Act 2013

OR

Course Type: Discipline Specific Elective 3
Course Name: Techniques of Costing
Course Code: DSE3
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Explain the terms and its usefulness in Marginal Costing and prepare a marginal cost statement.
CO2	Apply Marginal Costing technique in decision making.
CO3	Apply Variance Analysis in controlling cost.
CO4	Explain Management Control System and different types of Management Reporting methods.

OR

Course Type: Discipline Specific Elective 3
Course Name: Advertising Management
Course Code: DSE3
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Identify the concepts related to advertising.
CO2	Explain the Process of building the advertisement.
CO3	Examine the concepts related to Advertising Agencies.
CO4	Describe the advertising effectiveness.

Course Type: Discipline Specific Elective 4
Course Name: Financial Reporting
Course Code: DSE4
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Knowledge of financial Reporting System, reporting Standards and Corporate Social Responsibility.
CO2	Apply the theoretical knowledge of accounting standards through problem solving
CO3	Explain the different developments in financial reporting and apply them practically.
CO4	Evaluate the concepts of International Financial Reporting Standard and IND – AS

OR

Course Type: Discipline Specific Elective 4
Course Name: Management Accounting
Course Code: DSE4
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Describe the basic concepts in Management Accounting.
CO2	Classify and prepare the different types of budgets.
CO3	Understand concepts on capital budgeting and interpret the capital investment decisions under various methods.
CO4	Determine the meaning and importance of Target Costing and Enterprise Resource Planning.

OR

Course Type: Discipline Specific Elective 4
Course Name: Services Marketing
Course Code: DSE4
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Describe the marketing strategies adopted by service firms of hospitality and transport industry, courier services, media services and health care services.
CO2	Discuss the various services provided by banks.
CO3	Analyse the various types of insurance and trends in insurance.
CO4	Evaluate the emerging trends in Services.

Semester VI

Course Type: Core Course
Course Name: Human Resource Management
Course Code: CC17
Department: Commerce
Course Outcomes:

Upon the completion of the course students will be able to:

CO1	Appraise the idea of Human Resource Management.
